

Erasmus+

“Water and Its Magical Power”

“Let’s safe the water” – Course in Zaragoza, Spain, 4th–8th May 2016

Day 1 – Leaving home

On Tuesday 3rd March we met on the bus station in Brno approximately at 7.30 a.m. Our team went to Spain to take part in the last of the meetings within the international Erasmus + project entitled “Water and Its Magical Power”. The members of the project team were the teachers: Šárka Špičková and

Jiří Stibor, the students: Aneta Bednářová, Lucka Benešová, Jakub Bednář, Vojta Buček, Tomáš Brtník. We travelled to Prague by bus and then we flew to Madrid by plane. Zaragoza is a beautiful city on an important Spanish river Ebro (Río Ebro). Ebro river receives water from more than 200 tributaries. We arrived there to meet our host families at around midnight.

Day 2

The first day we went to the library where was a welcome meeting. After this program we went to school. We watched performances and presentations of all schools. Then we went to school where we ate the snack and where we played football. We had lunch at home and at three o'clock

we met at school again to attend some activities. After the program we had a day off and went to the city. When we returned, we went to the buffet and watched football.

Day 3

In the morning we went to the best origami museum in the world which is in Zaragoza. There were many interesting pieces made of paper. After that we walked through the city to the medieval castle Aljaferija. After visiting this monument we had lunch and then we had some free time that we

spent on the playground. Then we were in the adventure park and could try out canoe on the artificial water channel. Some people got wet so that we went back to our families.

Day 4

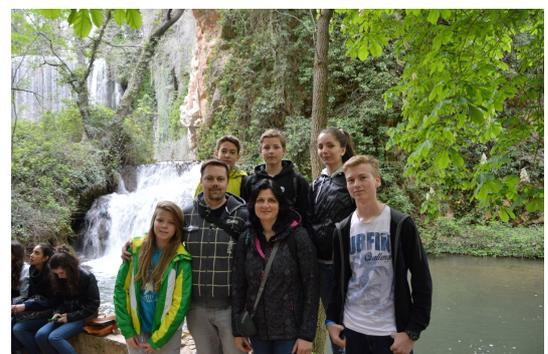

In the morning we met our friends at school and then we went to the city centre of Zaragoza for some sightseeing. Our Spanish friends were the guides. First we visited the bridge Puente de Piedra, then Arco del Deán – an arc. When we went under it, we could wish something. Later we saw for example the church Iglesia de Santa Maria Magdalena, Torreon de la Zuda and the huge and impressive cathedral Senora del Pilar.

After that we had lunch in our families. In the evening we went together to the second biggest shopping centre in Europe. It is called Puerto Venecia. We had a lot of fun there.

Day 5

This day we went by bus to the Monasterio de Piedra. When we arrived, we had some free time to buy something in the giftshop. Then we entered the park. We saw a beautiful nature, waterfalls and streams. We walked around and through rocks. We could feed fish in ponds. At the end of the visit of

the park we watched the show of birds. After that we had lunch in the restaurant and then we came back to Zaragoza.

Day 6

It was raining for the whole morning so we couldn't have the program which should have been outside, so we had some free time. Me and my friends had a date in a coffee room. After that we went to the shopping centre but all shops were closed because it was Sunday! So we went to a game house. There we played a bowling, a table-football and other games. At noon we went for lunch to our houses. In the afternoon we were expected at school to "party". We were in the gym and we watched photos from the whole meeting in Spain. We could try various delicious Spanish food. Then we played football or basketball and some more matches. In the evening we had to say goodbye to all students and teachers from other countries and went to the city. There was some music and attractions like electric cars, carousels... As soon as we were tired, we said goodbye to others students and we went home to sleep because the next day we had to start a long way home.

Day 7 – Coming home

Finally, it is necessary to say that we all spent an amazing week in Zaragoza which we consider to be a really wonderful and interesting city. But the most important thing is that we could be surrounded by nice friends, we could share their space, their way of life and all these experiences will stay in our hearts and minds forever. We are already missing you. Thanks a lot!
